**Response to Office Action**

Sir:

This Response is filed addressing the issues raised in the Office Action dated 4/22/2005, regarding the above-noted application for patent. The Applicant submits that, in light of the remarks below and the requested amendments to the application, the application is in proper condition for allowance. The Applicant respectfully requests the examiner allow the amendments to the specification and claims and allow the patent to proceed to issue.

**REMARKS**

**Drawings**

As it appears that Examiner will not withdraw the objection to the quick connect fittings in both office actions, for purposes of forwarding this patent to issue, but without waiving protest to the objection if appeal is to be filed, Applicant withdraws Claim 3 with regard to the quick connect fittings in order to advance this application to allowance and issue. If this matter is presented on appeal, Applicant maintains the right to resubmit Claim 3. No amended drawings are therefore required.
